

Preliminary Program
16th-18th January 2020, Weissensee,
Austria

**Translation in cardiovascular medicine – expectations, failures
and success**

Thursday, 16th January 2020

- 12:00** **Welcome: Bruno Podesser (A)**
- 12:10-14:00** **Resident Lunch: Meet the Editors**
Bruno Podesser (A), EJCTS, JCVPT
Johann Wojta (A), Cardiovasc Res, Thrombosis & Haemostasis
David Chambers (UK), EACTS
Ronglih Liao (USA), CIRC RES
Alessio Rungatscher (I), ICVTS
Zoltan Papp (H), EHJ, ESC HF
- 14:00-14:30** **Coffee break**
- 14:30-16:00** **Symposium I: Young Fellows Forum**
- 16:00-16:30** **Coffee break**
- 16:30-18:00** **Symposium II : “Regeneration and Cell Therapy”**
“Why is cell therapy in cardiovascular medicine still waiting for translation?” Mariann Gyöngyösi (A)
“A Multi-omics Approach to Cardiovascular Disease” Manuel Mayr (GB)
“Inflammation in cardiovascular regeneration and repair - the role of monocytes and macrophages?”
Johann Wojta (A)
- 18:00-18:45** **Keynote Lecture I: tba**
Ronglih Liao, Stanford and Harvard, USA

Cardiovascular Research Days 2020, Preliminary Program

19:00 **Common dinner at the Restaurant in the Congress Center Weissensee**

Friday, 17th January 2020

08:00-09:30 **Symposium III: “Intraoperative myocardial protection”**

“Why are we still using cardioplegic solutions, developed 50 years ago?” David Chambers (GB)

“Polarized cardioplegia- a clinical success?” Francesco Onorati F (I)

“Can we get rid of inflammatory cytokines?” Christian Hagl (G)

“New concept in donor heart preservation?” Andreas Zuckermann (A)

9:30-10:00 **Coffee break**

10:00-11:30 **Symposium IV: “Myocardial protection- short and long-term effects in STEMI patients”**

“The role of the red blood cell in myocardial ischemia-reperfusion injury” John Pernow (S)

Pro-Contra: “Has remote ischemic conditioning failed after CONDI II?” Hector Cabrera-Fuentes (UK/Singapor) vs. Petra Kleinbongard (G)

“Tenascin C- a potential target in remodeling” Attila Kiss (A)

11:30-12:15 **Symposium V: “Moderated poster sessions I-III”**

12:15-15:30 **Lunch Break**

15:30-17:00 **Symposium VI: “Heart Failure Management”**

“Do we have novel and really effective drugs for acute and advanced heart failure?” Zoltan Papp (H)

“Reverse remodeling- experimental and clinical expectations“ Tamas Radovits (H)

“HF management in the operative setting – what are the news?” Angela Rajek (A)

17:00-17:30 **Coffee break**

17:30-18:30 **Symposium VII: “Heart Valve Therapies”**

“Pro-Contra: aortic valve replacement in mid-risk patients” Martin Grabenwöger (A) vs TBA

“Pro-Contra: aortic valve regurgitation – replace or reconstruct” Gabor Szabo (G) vs Rainald Seitelberger (A)

“Pro-Contra: mitral valve regurge – reconstruct or clip?” Lenard Conradi (G) vs Franz Eberli (CH)

Cardiovascular Research Days 2020, Preliminary Program

- 18:30-19:15** **Keynote Lecture II: “How to translate knowledge into a start-up company”**
Marcel Wassink, NLC Niederlande
- 20:00** **Common dinner at the “Alm hintern Brunn”**
Common walk to the alpine hut from Hotel Enzian at 20:00
-

Saturday, 18th January 2020

- 09:30-11:00** **Symposium VIII: “ Future in tissue engineering”**
“Endothelial profiling in vivo?” Stefan Chlopicki (PL)
“Small vascular conduits – why did translation fail so far? Helga Bergmeister (A)
“tba” Anna Marsano (CH)
- 11:00-11:30** **Coffee break**
- 11:30-13:00** **Symposium IX: “Latest experimental and clinical techniques”**
“A new horizon – next generation sequencing?” Martin Bilban (A)
“Imaging – a prerequisite for experimental and clinical excellence? Markus Hacker (A)
- 13:00** **„Carl Apstein Award“**
Closing remarks: Bruno Podesser (A)
-
